It is an excellent book. I like his step-by-step approach. He is clear and succinct. Also I enjoyed his tips. It is a must read!

I was not liking the new revision to i photos. This book helped.
Great instructional book to teach about the photos app for Apple. The book is very easy to follow with lots and lots of tips and tricks.

Another application I am trying to understand. I love the type of books because they show pictures and try to help you understand.

Great book. Helps a lot with my photo organization and image improvement.

Excellent review and summary of a useful book

Should be some training on using and how to start.
