Product Dimensions: 6 x 0.1 x 9 inches
Shipping Weight: 5.1 ounces (View shipping rates and policies)
Average Customer Review: 3.3 out of 5 stars See all reviews (39 customer reviews)

Customer Reviews

It's only $1, but the writing is difficult (maybe English not writer's 1st language?) OK, I was looking for a brief intro to WIN 10, as I updated earlier than anticipated. I had viewed some good resources, free, online, but wanted to try something that might prove helpful & be located "all in one place." As this book had mostly rave (5-star) reviews, except for 1 dissenter (1-star) I thought I give it a try at $1. My humble assessment? I'll split the difference between them-- 3 stars. Because, THERE MIGHT BE SOME USEFUL info, but (so far-about a 1/3 of the way through) it's hidden behind
some awful syntax, a ‘free range’ approach to grammar and numerous challenges and creative uses of the English language. Oh, it's a very small book (682 "locations" or about 50 pages.) Case in point: at location 155 (of 682)- . Author says, "If you are searching for an especial document or archive, then you should type to see which are the current suggestions deployed by the pop-up tool, after the research." I'm thinking, "what's an especial document?" Maybe he means "special?" then "... after the research." Is that, "... after the search?" OK, small matter, but continuing in the same location, couple of sentences further... "This is a little difference with the previous Windows 8 and 8.1..." I think he's trying to say, "This is different from WIN 8 & 8.1..." I'm not trying to pick at the small writing mistakes, but they're everywhere (so far) and require, um, translation into 'what is the author trying to say?' Next paragraph begins, "Starting menu opposite from previous versions is now customizable and can be changed using your right button.
