Stingrays! Underwater Fliers (Step Into Reading)

Synopsis

Did you know that stingrays are cousins of sharks? This Step 3 Step into Reading Science Reader is full of exciting photographs, illustrations, and facts about these magnificent sea creatures. Follow a stingray as she chomps her prey, escapes a hungry hammerhead shark, and gives birth to her stingray pups! Â Step 3 Readers feature engaging characters and easy-to-follow plots about popular topics, and are for children who are ready to read on their own.

Animals > Marine Life #1126 inÂ Books > Children's Books > Science, Nature & How It Works

Age Range: 5 - 8 years

Grade Level: Kindergarten - 3

Customer Reviews

love these books, great price, kids walks away learning something, parent feels good about reading, then one day child reads themselves, price is fantastic-keep making many book-different subjects-really enjoy learning along with my daughter

My husband and I took our boys on a mini vacation to Tampa where we took them to two aquariums and the stingrays were one of their favorites. My boys are homeschooled and they loved receiving this book to learn more about these fascinating creatures they love so much. This is a neat book with colorful pictures appealing to kids and it's informative too.

This nonfiction early reader gives facts about stingrays in an engaging, uncomplicated way. A mixture of photographs and illustrations complement the text well. This would be a helpful resource for student research projects, or a good leveled reader for middle-elementary nonfiction lovers. Although it's not particularly graphic, very young children may find the scene where the hammerhead eats the stingray and the one where a stingray stings a swimmer a little scary.

My son learned alot about stingrays. Very informative.

great book in all respects
