Answers Book For Kids Volume 3

Synopsis

Even adults struggle to understand our Creator - the infinite Being who seeks a personal relationship with each of us. Now children can begin to understand both God's Holy Word and the importance of Him in their lives - what He expects from them, why it is vital to follow His plan for their lives, and the love He has for them. Open the book and discover: Why can't I hear God talking to me? How big is God? What does God look like? Why do I get in trouble at school when I talk about the Bible? These important answers will empower children to live with godly values and help them to understand why it is so important that they obey God. The Answers Book for Kids series is a unique collection from Ken Ham and the creative team at Answers in Genesis. This set is an ideal resource for your elementary homeschool or your Church library. This is the 3rd book of a 6-volume set.

Book Information

Series: Answers Book for Kids (Book 3)

Hardcover: 48 pages

Publisher: Master Books (March 27, 2009)

Customer Reviews

The Answers Book for Kids Volume 3: 22 Questions from Kids on God and the Bible and Volume 4: 22 Questions from Kids on Sin, Salvation and the Christian Life by Ken Ham are great resources for helping your children try and understand some of the big questions they having rolling around in their minds. Thses books are great at helping guide the child to find out those "Why" questions and to dig deeper into the Bible. Each page has a question from a child, a response and extra scriptures that you can use to learn even more of what God's word says about the question. Some of the

questions are, "Who made God?, How big is God?, Why does God let the bad guys win sometimes?, How does God get His power? Where does He get it from?" This was also a great resource for me, as a parent, on my journey of faith and wrestling through some of the more difficult questions of life. I really enjoyed the pictures used on each page. They were creatively put together to help match the question asked. I have not yet read Volumes 1 and 2 but I am sure they were done with the same quality and accuracy as Volumes 3 and 4. I would definitely recommend having these in your home library, town library and/or church library.

Trying to teach children scientific proof for the biblical account of creation can be a challenge. So many of the concepts are deep but this book does a great job of bringing those concepts down to a child's level. Any parent with small children should buy this book.

Really good questions! My children love it..if I read it to them! More a book you go through with your children, than one they read for themselves, and you can discuss it but depends on their age. My two are 8 and 9. Recommend it.

Having a grandson who loves to ask the hard questions, I knew he and his siblings would enjoy this book. Ken Ham has great insight into the Biblical view of creation and these books deal with those questions in a way young children can understand.

Gave these to my niece for her birthday. She loves them. :) Very pleased with what it teaches, and how he explains things to the children who read this series and it's also great for adults to get closer to their children with Godly guidelines

We have three of The Answers Books for Kids and I am so impressed with the easy to understand and informative answers. Kids often ask such inquisitive questions and sometimes they are tough questions to answer! :) I appreciate that there are resources available to parents like me who desire to give a Bible-based answer to their kids. Thank you!

I like the short question answer format and am looking forward to incorporating some of these questions into our regular children's Bible club. These books are designed well for the children's audiences. I like that the questions appear to be asked of specific children.

We've had fun going over these questions as a family. They keep Bible discussions energetic!
There are some answers that I've felt the need to elaborate on, but it gets us thinking and it's mostly right on!
