Customer Reviews

I am a longtime BB fan. My kids (4 and 5 years old) are now enjoying my collection and so I decided to purchase some of the newer books for them to add to it. This was a cute one, pointing out all that moms do for their little ones. The cubs are looking for an idea of what they can do for mom for Mother's Day, but the book only offers one suggestion instead of a few different ideas. Otherwise, my kids and I really liked it.

For my grandchildren (6 and 9) at their request - they both love cuddling up to mom or dad to hear the stories read aloud - even though they can read the book alone. The message is good for all of us.

I love the original Berenstain Bears books and so do my kids. They are wonderfully illustrated and the rhyme and meter are second to none. I was born and raised on these stories and I bought them for my children when they were born. "Inside, Outside, Upside Down" was the first book my daughter learned to read on her own. She is seven years old now and still loves them. These are timeless classics that you can pass on to your children and grandchildren. Buy them all now!

Our granddaughters loved the Bears of these books bringing them the hidden lessons until the girls reached 7ish. So get 'em started early and well. The lessons your darlings experience in these books will stand them in good stead to get along with society for the rest of their lives. As an aging grandmom with lots of time to think, I have decided that getting along well with the other humans populating our world is probably the best of lessons to have mastered.

My son loves these books. They teach excellent values and morals and also allow my child's reading skills to enhance.

I read the Berenstain Bears often to my granddaughter and have read to my older grandchildren and my own children. Whether new or old books the stories do a wonderful job of teaching a lesson in a loving kind way. I like them all.

We love the Berenstain Bears - these books are a good night time book to read with my son and this was a perfect Mother's Day present. Can't wait for Father's Day to give "We love our Dad" to him

We grew up reading this series and I was glad I could pass on the heritage to my Baby Girl. She loves the series and I feel the underlining message is passing through to her which is the most important part.
