# Magnet Max

## **Synopsis**

Magnet Max loves experimenting with magnets. He knows all about how they work and loves using them to attract new types of things. But when he shows them to his friend Nick, the other boy is baffled. Will magnets stick to a paperclip? A refrigerator? A horse? How do they work, anyway? It must be magic! Join Max and Nick as they explore the science behind the magic. Discover which objects are attracted and why some are while others aren't. In Magnet Max, Monica Hughes uses her experience as an educator to explain scientific concepts in clear, easy-to-follow language. Catchy rhymes and the colorful illustrations of Holly Weinstein add to the fun. Watch your children's curiosity come to life as they explore the wonders of magnetism with Magnet Max!

## **Book Information**

Age Range: 4 - 8 years

Grade Level: Preschool - 3

## **Customer Reviews**

I was looking for a book about magnets for my prek3 class. I found only informational text until I saw Magnet Max on . My kids really love this book! They all sit in silence while I read it. I think it really relates to a child's first interaction with magnets. They think it is magic! I would highly recommend this book, especially if you are doing lessons on magnets. Good, colorful illustrations as well. Just right for 3-5 year olds.

Great book, but when I got it the book was really bent and the pages were creased. It was an expensive book also. I would give 5 star if I got it in great shape
