Rediscovering God In America: Reflections On The Role Of Faith In Our Nation's History And Future

Synopsis

In this updated and redesigned edition of the New York Times bestseller, Newt and Callista Gingrich invite you on a walking tour of America's capital city; Washington, D.C. As a reminder of God's role in the history and future of America, Newt and Callista Gingrich give readers a look into the architecture and beauty of the nation's Capitol in REDISCOVERING GOD IN AMERICA. Readers will take a walk through Washington, D.C. to view the nation's monuments and memorials, including the National Archives, where Thomas Jefferson's immortal words jump off the page. But this is not simply a walking tour of the city; this is a tour of American history--of great men and women, events, documents, institutions, and ideas--all shaped decisively by the genuine belief that America is a nation founded under God. Readers will quickly find themselves on a profound path of discovery and renewal.

Rediscovering God in America is beautiful book which offers a truly a refreshing tour of American history. Newt and Callista have done a wonderful job of reminding us of the central role that faith played in the creation of our country. This is a book that everyone should read.

Yet another 5 star production from Newt and Callista Gingrich. They love America in a contagious manner. They want all generations to know America as it was originally designed and have produced books and movies to do that in a brilliantly entertaining and fascinating way.

Rediscovering God in America does just that. They have hit the ball out of the park once again! This

is a book you can't put down.

Thrilled to receive this yesterday the first day available. It's a beautiful book the photos all look like paintings. They are so beautiful. Can't wait until I can fill my head with all this knowledge. Also makes a great coffee table book as well.

It's a breathtaking walk to rediscover God in America and see, feel, and truly understand the role of faith in our nation. I believe Newt and Callista provide essential knowledge and facts to gain perspective on religious liberty as well as forces that want to drive God out of our public square. All this in a beautifully inspiring cover to cover experience. It's brand new and a perfect gift for graduates, Father's Day, family and friends!

• That all men are created equal, that they are endowed by their Creator with certain unalienable Rights, that among these are Life, Liberty and the pursuit of Happiness • is the basis of this highly informative and enlightening book by Newt and Callista Gingrich. This book lifts the veil of misinformation regarding our Founding Fathers, and rather, steers readers in the direction of historical truth. A must read. Plus a wonderful gift to pass along to children and grandchildren.

Amazing pictures, historical significance, and an excellent book to help teach our kids about the Founding Fathers and the birth of America.

Fascinating review of history through the monuments we have built to help us remember our roots and from where our freedom comes. The ending summary is both gripping and alarming, that we could have come as far as we have from the direction of our founding fathers. God help this unique country take a drastic turn in the direction of rediscovering God in America.

Beautiful photographs! This book conveys how God is central in our everyday lives by studying the history of our nation's capital. Great work Speaker and Mrs. Gingrich.
