# National Geographic Kids Almanac 2011

## Synopsis

"Dare to explore! The National Geographic Kids Almanac 2011 brings young readers the very latest updates on living on, and caring for, planet Earth. The Almanac's cool photos, lively illustrations and easy-to-read format encourages readers to absorb countless incredible facts and spend hours browsing hot topics, such as fun ways to convince your family to go green. In true National Geographic Kids magazine style, this is a book to excite kids about their planet: its fun-filled pages are packed with everything from how to decode your dreams to the excitement of underwater pumpkin carving to the fascinating powers of the human brain. Geography, history, science, and adventure—all here to explore in one single volume. This is the reference book that gives young minds MORE... More than 15 homework-helper sections More than 50 puzzles, projects, and really cool experiments More than 500 pictures of our planet and all that's on it More than 5,000 fun and amazing facts The opening section introduces timely information for 2011 and unique National Geographic content. The rest of the Almanac is filled with fun facts and helpful references on subjects from countries worldwide to Presidents stateside, from the wisdom of convention to cool new inventions."

Age Range: 7 - 9 years

Grade Level: 2 - 4

## Customer Reviews

Just got this today and scanned it, seems like a really nice book. I like that it is not large because

my 8 year old has plenty of large encyclopedias around here already. This is a novel size book, I bought the hard cover. He will love it when I give it to him. It has great pictures, maps, and a lot more.

My 6 year old asked for a kids atlas for his birthday, but I accidentally bought an almanac. He loves the almanac, though. He enjoys looking at the pictures and asks me to read the information on the pages to him.

Mine are thrilled with each edition I buy to share with them. They really settle down for bed time or couch/relax time.
