Hiding from the NazisI don't know how old I was when I first learned of the Nazi death camps; the Holocaust was an unknown word. As an adult, young children come to me asking for books about the Holocaust. I am confronted with the question, how much information to give and what form should it take? In this picture book Hiding from the Nazis, David Adler, in slightly stilted, but in unambiguous words lays out the pivotal moments of Hitler's systematic persecution and murder of the Jews in the Netherlands. This true story centers on Lore Gottschall and highlights the danger, isolation, and deep break of trust suffered by those who hid from the Nazis. This story cannot be told with out bringing to light the courage of Dutch families who bravely hid Jews from Nazi invaders. Lore is separated from her family and hidden on a farm in Holland at great peril to her protectors and shows the sacrifice her family made to survive in a personal way. Mr. Adler also shows how rocky the reunion of the Gottschall family was and shares what happened to the Danish family and the Gottschall's after World War II ended. The illustrations of Karen Ritz clearly show the story with color, facial expressions and movement.
